## SUMMARY

I'm a Web developer with experience and good knowledge of HTML, CSS, Javascript and React. Proficient in Bash, and Git as well as other technologies. Proven ability to work in a fast-paced environment with high-quality standards and strict deadlines. Ever willing to learn and work with new technologies and tools. Applying for a position as a Frontend developer

---

## PROJECTS

### Personal Projects

- Currently making finishing touches to all my projects which include;
- 
- A movie streaming site
- JQuery Chatbot (finished)
- A compound interest calculator(finished)
- A blog using a payment method
- A better modeled portfolio
- and a lot others

---

## EXPERIENCE

### Frontend web developer | San Antonio web design, Texas | Texas | May 2021 - August 2021

- Help work and manage the company's blog websites. I was responsible for the content design and layouts of the websites.
- I also did some coding work on the websites to help improve the user interface and make the websites more user-friendly.

---
